# Ross Double Crossover
DZ-1000 & DZ-1002 Wiring

Z-Stuff for Trains
2-23-02

Switch machines should be mounted
in these positions. In this setup, when
'L' is connected to common, all switches
are straight thru. When 'R' is connected
to common, all switches are to turnout.

A single DZ-1002 remote
can control all (4) DZ-1000
switch machines. Pressing 'L'
button will throw ALL switches to
straight thru. Pressing 'R' button
will throw all switches to crossover.

DZ-1000s (4)
    AC- connect all to 12VAC
    L - connect all to L of DZ-1002
    R - connect all to R of DZ-1002
DZ-1002 (1)
    C - connect to Common
    L - connect to 'L's
    R - connect to 'R's
